Welcome to the STM32 Arm®Cortex®-based MPUs user guide

Wiki archive for STM32 MPU ecosystem-v2 releases flow!

This user guide is dedicated to ST customers wanting to continue to work with STM32 MPU ecosystem-v2 releases flow. For new STM32 MPU customers, it is highly recommended to jump to the last STM32 MPU releases flow available [here](#).

ST user guides aim at assisting developers to use STM32 MPUs microprocessor devices from STMicroelectronics, starting with the **STM32MP1 series**. ^[1]

It contains many articles to discover the **STM32MP1 series** and associated **ecosystems** (STM32 boards, embedded software, development tools, trace & debug tools...).

Information

The latest release for STM32MP1 series in the **ecosystem-v2 flow** is the **STM32MP15 ecosystem release v2.1.0**

Discover all the new features described in the [STM32MP15 ecosystem release note](#) or jump in using the [Getting started](#) zone.

Now, let you drive by links given in the articles, starting with the ones below.

Getting started	Development zone
Discover our boards and the ecosystem around our STM32 Arm Cortex-based MPUs, step by step	Over 500 updated articles on the STM32 Arm Cortex-based MPUs.

This user guide complements the resources available on STMicroelectronics web site for the STM32 Arm Cortex-based MPUs. It is strongly recommended, before starting browsing this user guide, to go through the [legal notice](#), and the [reading tips](#).

Chrome and Firefox browsers are recommended.
