Preferred integrated development environments (IDEs) to debug STM32 MPU device is [STM32CubeIDE](#)

### Information

From ecosystem release v1.1.0 , customers can continue to use SW4STM32 IDE but the ST Eclipse reference is STM32CubeIDE. In case of support, ST will focus and recommend STM32CubeIDE tool. SW4STM32 projects can be imported in STM32CubeIDE V1.1.0

Microprocessor Unit

(Software)Integrated development/design/debugging environment
