1 Usage

The STDarkBlue template is used to color text in pages, with the STMicroelectronics corporate primary color shade of dark blue ().

Where:

```
Usage:  {{STDarkBlue|<text to color>|tint=<tint>}}
```

- **<text to color>** is the text to format in dark blue. If this template is called with no text, the hexadecimal code of the color is returned.
- **<tint>** is the tint of the color expressed in percentage. If tint is not set then the original color is used (tint = 100%). The possible value are:
 - **75**: 75% of the original color tint
 - **50**: 50% of the original color tint
 - **25**: 25% of the original color tint

2 Basic examples

You type	You get
