Category:Embedded software components

This category groups together all articles and subcategories related to the software components designed for the STM32MPU microprocessor devices and their associated boards.

### STMicroelectronics embedded software architectures

**What is the architecture of the software running on my STM32MPU board?  
How can I configure the software for my needs?**

**Click on the links in the frame below and let you drive!**

**STM32MPU Embedded Software architecture  
overview**

**STM32MPU Embedded Software for Android  
architecture overview**

---

## Subcategories

---

This category has the following 7 subcategories, out of 7 total.

**0**

- Architecture overview (5 P)
- Platform boot (3 C, 1 P)
- Platform security (2 C, 5 P)
- Platform configuration (2 C, 4 P)
- Linux Operating System (12 C, 1 P)
- STM32Cube MPU (2 C)
- Applications and UI frameworks (1 C, 2 P)

---

## Pages in category "Embedded software components"

---

The following 2 pages are in this category, out of 2 total.
