Welcome to the STM32 Arm® Cortex®-based MPUs user guide!

This user guide aims at assisting developers to use STM32 MPUs microprocessor devices from STMicroelectronics, starting with the STM32MP1 series. [1]

It contains many articles to discover the STM32M P1 series and associated ecosystems (STM32 boards, embedded software, development tools, trace & debug tools...).

[M32MP15 ecosystem release note](#) or start playing with it jumping to the [Getting started zone](#).

Now, let you drive by links given in the articles, starting with the ones below.

[Getting started](#)

Be guided step-by-step to take a grip on the boards and the ecosystem for the STM32 Arm Cortex-based MPUs

[Development zone](#)

Go through around 400 articles, regularly up the STM32 Arm Cortex-based MPU

This user guide complements the resources available on STMicroelectronics web site for the STM32 Arm Cortex-based MPUs.

It is strongly recommended, before starting browsing this user guide, to go through the [legal notice](#), and the [reading tips](#).

Welcome

For **communication and support** , you can use ST Support Center or ST Community MPU Forum.
