## STM32MP15 resources

All the resources for the STM32MP1 Series are located in the Resources area of the STM32MP1 Series web page.

The resources below are referenced in some of the articles of this user guide.

The different **STM32MP15** microprocessor **part numbers** available (with their corresponding internal peripherals, security options and packages) are described in the **STM32MP15 microprocessor part numbers**.

means that the document (or its version) is new compared to what was delivered within the previous ecosystem release.
