<noinclude> ==Usage== The [[Template:EcosystemRelease/Component|EcosystemRelease/Component]] template returns "the version of a software component" delivered by an ecosystem release revision of the flow associated with this wiki (e.g. v1.y.z ,or v2.y.z, or...). Usage: <nowiki>{{</nowiki>EcosystemRelease/Component | revision={{HighlightParam|<revision>}} | component={{HighlightParam|<component>}} | name={{HighlightParam|<name>}}}} Where: * {{HighlightParam|<revision>}} is the "mandatory" revision of the ecosystem release, for which the version of the software component is requested. ** The possible values for this parameter are available in the [[Template:EcosystemRelease/Revision|EcosystemRelease/Revision]] template. * {{HighlightParam|<component>}} is the "mandatory" software component delivered by the ecosystem release revision, for which the version of the component is requested. The possible values are: ** "Linux kernel" ** "U-Boot" ** "TF-A" ** "OP-TEE" ** "STM32CubeMPU" ** "OpenEmbedded" ** "Android" * {{HighlightParam|<name>}} is the "optional" parameter that allows to select the way the version name is displayed. Per default (if {{HighlightParam|<name>}} is not set), the long board name (e.g; "Linux kernel vx.y-stm32mp-[...] (vx.y.z)") is displayed. The possible value for {{HighlightParam|<name>}} is: ** "short": the short version name (e.g. "x.y") is displayed The returned value is: * a string that contains the version of the software component delivered by the ecosystem release revision. * an empty string, if the software component is not delivered by the ecosystem release revision. * "unknown revision", if {{HighlightParam|<<revision>}} is not supported. * "unknown component", if {{HighlightParam|<<component>}} is not supported. ==Basic examples==

You type	You get
All components for the v3.1.0 revision requested	<pre> Long version names: {{EcosystemRelease/Component revision=3.1.0 component=Linux kernel}} {{EcosystemRelease/Component revision=3.1.0 component=U-Boot}} {{EcosystemRelease/Component revision=3.1.0 component=TF-A}} {{EcosystemRelease/Component revision=3.1.0 component=OP-TEE}} {{EcosystemRelease/Component revision=3.1.0 component=STM32CubeMPU}} {{EcosystemRelease/Component revision=3.1.0 component=OpenEmbedded}} {{EcosystemRelease/Component revision=3.1.0 component=Android}} Short version names: {{EcosystemRelease/Component revision=3.1.0 component=Linux kernel name=short}} {{EcosystemRelease/Component revision=3.1.0 component=U-Boot name=short}} {{EcosystemRelease/Component revision=3.1.0 component=TF-A name=short}} {{EcosystemRelease/Component revision=3.1.0 component=OP-TEE name=short}} {{EcosystemRelease/Component revision=3.1.0 component=STM32CubeMPU name=short}} {{EcosystemRelease/Component revision=3.1.0 component=OpenEmbedded name=short}} {{EcosystemRelease/Component revision=3.1.0 component=Android name=short}} </pre>

`<noinclude> ==Usage==` The `[[Template:EcosystemRelease/Components|EcosystemRelease/Components]]` template returns ""the version of all software components"" delivered by an ecosystem release revision of the flow associated with this wiki (e.g. v1.y.z ,or v2.y.z, or...). Usage: `<nowiki>{{</nowiki>EcosystemRelease/Components | revision={{HighlightParam|<revision>}}}}` Where: * `{{HighlightParam|<revision>}}` is the ""mandatory"" revision of the ecosystem release, for which the version of all software components is requested. ** The possible values for this parameter are available in the `[[Template:EcosystemRelease/Revision|EcosystemRelease/Revision]]` template. The returned value is: * a string that contains the version of all the software components delivered by the ecosystem release revision, in a form that is usable by a tooltip. * ""unknown revision", if `{{HighlightParam|<revision>}}` is not supported. This template relies on the `[[Template:EcosystemRelease/Component|EcosystemRelease/Component]]` template. `==Basic examples==`

You type !! <noinclude> ==Usage== The [[Template:EcosystemRelease/Package|EcosystemRelease/Package]] template returns "either the name, the URL, or the installation path, of a software package or script" delivered by an ecosystem release revision of the flow associated with this wiki (e.g. v1.y.z ,or v2.y.z, or...). Usage: <nowiki>{{</nowiki>EcosystemRelease/Package | revision={{HighlightParam|<revision>}} | package={{HighlightParam|<package>}} | request={{HighlightParam|<request>}}}} Where: * {{HighlightParam|<revision>}} is the "mandatory" revision of the ecosystem release, for which the name, the URL, or the installation path of the software package or script is requested. ** The possible values for this parameter are available in the [[Template:EcosystemRelease/Revision|EcosystemRelease/Revision]] template. ** "latest" is also a possible value: the latest revision of the ecosystem release is then considered. * {{HighlightParam|<package>}} is the "mandatory" software package or script delivered by the ecosystem release revision, for which the name, the URL, or the installation path is requested. The possible values are listed in the below table. * {{HighlightParam|<request>}} is the "mandatory" request, i.e. either the "name", the "url", or the installation "path", of the software package or script. The possible values are listed in the below table. The returned value is: * a string that contains either the name, the URL or the installation path, of the software package or script (see the below table for details). * an empty string, if the request is not applicable (e.g. requesting the URL of the SDK environment script makes no sense). * "unknown revision", if {{HighlightParam|<revision>}} is not supported. * "unknown package or script", if {{HighlightParam|<package>}} is not supported. * "unknown request", if {{HighlightParam|<request>}} is not supported. {| class="st-table" ! {{HighlightParam|<package>}} !! {{HighlightParam|<request>}} !! <noinclude> ==Usage== The [[Template:EcosystemRelease/Revision|EcosystemRelease/Revision]] template returns ""the status for an ecosystem release revision"" in the flow associated with this wiki (e.g. v1.y.z ,or v2.y.z, or...), or ""the revision ("x.y.z") of the latest ecosystem release"". Usage: <nowiki>{{</nowiki>EcosystemRelease/Revision | revision={{HighlightParam|<revision>}}}} Where: * {{HighlightParam|<revision>}} is the ""mandatory"" revision of the ecosystem release for which a status is requested. The possible values are: ** ""latest"" to get the revision ("x.y.z") of the latest ecosystem release. ** ""2.0.0"" (June 2020 ecosystem release revision). ** ""2.1.0"" (November 2020 ecosystem release revision). ** ""3.0.0"" (March 2021 ecosystem release revision). ** ""3.1.0"" (November 2021 ecosystem release revision). ** x.0.0, x.1.0, x.2.0 and 0.y.0 values are reserved to the examples and the helper files. The returned value is: * ""x.y.z"" (revision of the latest ecosystem release), if {{HighlightParam|<revision>}} is set to ""latest". * ""latest", if {{HighlightParam|<revision>}} is the latest one, in the flow associated with this wiki. * ""legacy", if {{HighlightParam|<revision>}} is a legacy one, in the flow associated with this wiki. * ""next", if {{HighlightParam|<revision>}} is a planned one, in the flow associated with this wiki. * ""former", if {{HighlightParam|<revision>}} is part of a former flow that is not the one associated with this wiki. * ""unknown", if {{HighlightParam|<revision>}} is not supported. ==Basic examples== {| class="st-table" ! style="width: 50%;"| You type !! You get |- | vx.0.0 revision (legacy) <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=x.0.0}} </pre> | {{EcosystemRelease/Revision | revision=x.0.0}} |- | Revision ("x.y.z") of the latest ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=latest}} </pre> | {{EcosystemRelease/Revision | revision=latest}} |- | Revision ("x.y.z") of the next ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=3.1.0}} </pre> | {{EcosystemRelease/Revision | revision=3.1.0}} |- | Revision ("x.y.z") of the next ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=next}} </pre> | {{EcosystemRelease/Revision | revision=next}} |- | Revision ("x.y.z") of the latest ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=3.0.0}} </pre> | {{EcosystemRelease/Revision | revision=3.0.0}} |- | Revision ("x.y.z") of the latest ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=2.1.0}} </pre> | {{EcosystemRelease/Revision | revision=2.1.0}} |- | Revision ("x.y.z") of the latest ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=2.0.0}} </pre> | {{EcosystemRelease/Revision | revision=2.0.0}} |- | Revision ("x.y.z") of the latest ecosystem release <pre style="white-space: pre-wrap;">{{EcosystemRelease/Revision | revision=1.0.0}} </pre> | {{EcosystemRelease/Revision | revision=1.0.0}} |} ==More examples== {| class="st-table" ! style="width: 50%;"| You type !!
