1 Usage

The FileSource template is used to indicate the source of any file used in this wiki. It should be added at the bottom of each page of the file namespace.

It puts a message box with a "light blue database" icon in the page, and adds this page to the File source category.

If the file source is located in STMicroelectronics intranet (restricted access), **only logged-in users who have writing permissions, can see this location.**

Usage: `{{FileSource | <source ID> | <file ID> | <comment>}}`

Where:

- **<source ID>** is the **mandatory** identifier of source of the file (see table below for the possible values)
- **<file ID>** is the **mandatory** identifier of the file. Its values depend on the source identifier (see table below)
- **<comment>** is an **optional** comment (see table below)

File source	<source ID>	<file ID>	<comment>
STMicroelectronics Digital Assets Library (intranet - restricted access)	Digital Assets Library	Number of the document in this Library Any space is replaced by a "%20" character	Not used
STMicroelectronics user guide files library (intranet - restricted access)	User guide	Relative path of the file source from the user guide files library root directory Any space is replaced by a "%20" character	Not used
STMicroelectronics training files library (intranet - restricted access)	Training	Relative path of the file source from the training files library root directory Any space is replaced by a "%20" character	Not used
STMicroelectronics UML diagrams'		Relative path of the UML diagram from the UML diagrams' Git repository root	

File source	<source ID>	<file ID>	<comment>
Git repository (intranet - restricted access)	UML diagram	directory Any space is replaced by a "%20" character	Not used
Internet	Internet	URL of the file source Any space is removed	Optional link text
The file is "self-contained" (to modify the file, it is enough to download it)	NA	Optional comment	Not used

2 Basic examples

You type	You get
File source: document 7331 of the Digital Assets Library <pre> {{FileSource Digital Assets Library 7331}} </pre>	 Source STMicroelectronics
File source: document STM32MP157x-DKx.pptx of the user guide files library <pre> {{FileSource User guide Boards/STM32MP157x-DKx.pptx}} </pre>	 Source STMicroelectronics
File source: document STM32MP15-Software-Software architecture.pptx of the training files library <pre> {{FileSource Training STM32MP15-Software-Software architecture.pptx}} </pre>	 Source STMicroelectronics
File source: UML diagram quadrature_x4_encoding.txt of the UML diagrams' Git repository <pre> {{FileSource UML diagram timers/quadrature_x4_encoding.txt}} </pre>	 Source STMicroelectronics
File source: URL for OpenEmbedded	

You type	You get
<p> <code>{{FileSource Internet http://www.openembedded.org/ OpenEmbedded}}</code> </p>	 Source OpenEmbedded
<p>"Self-contained" file</p> <p> <code>{{FileSource NA (archive file)}}</code> </p>	 Source not applicable (archive file)

3 More examples

You type	You get
<p>No <source ID></p> <p> <code>{{FileSource}}</code> </p>	 Source STMicroelectronics
<p>Unsupported value for <source ID></p> <p> <code>{{FileSource Unsupported value}}</code> </p>	 Source STMicroelectronics
<p>No <file ID> for the Digital Assets Library</p> <p> <code>{{FileSource Digital Assets Library}}</code> </p>	 Source STMicroelectronics
<p>No <file ID> for the user guide files library</p> <p> <code>{{FileSource User guide}}</code> </p>	 Source STMicroelectronics
<p>No <file ID> for the training files library</p> <p> <code>{{FileSource Training}}</code> </p>	 Source STMicroelectronics
<p>No <file ID> for the UML diagrams' Git repository</p>	

You type	You get
<pre> {{FileSource UML diagram}} </pre>	 Source STMicroelectronics
<p>No <file ID> for the Internet</p> <pre> {{FileSource Internet}} </pre>	 Source No URL supplied!
<p>No <comment> for the Internet</p> <pre> {{FileSource Internet http://www. openembedded.org/}} </pre>	 Source http://www.openembedded.org/
<p>No <file ID> for the NA</p> <pre> {{FileSource NA}} </pre>	 Source not applicable
<p>Check that the spaces before and after the message</p> <pre> BEFORE{{FileSource NA}}AFTER
 BEFORE {{FileSource NA}} AFTER </pre>	<p>BEFORE</p>  Source not applicable
	<p>AFTER</p> <p>BEFORE</p>  Source not applicable
	<p>AFTER</p>
