

Template:GSModuleCurrent

1 Usage

The `GSModuleCurrent` template is used **to highlight the module that is currently presented** in pages of the "getting started" zone, with the STMicroelectronics brand color shade of dark blue (■) in bold.

```
Usage: {{GSModuleCurrent|<text (module name)>}}
```

2 Basic examples

You type

Current module

```
{{GSModuleCurrent|Hello world!}}
```

You get

Hello world!

3 Code

```
{{{1}}}
```
