1 Usage

Historically, the `Grey` template was used **to color text** in pages, with the "classic MediaWiki grey" color. It is now mapped on the `STDarkGrey` template that is a STMicroelectronics corporate color.

```
Usage:  {{Grey|<text to color>}}
```

Where `<text to color>` is the text to format in grey. If this template is called with no text, the hexadecimal code of the color is returned.

Warning

Do not use this template anymore: use the `STDarkGrey` template instead.
