1 Usage

The `PublicationRequestId` template is used to store, in a page, the date and the identifier (ID) of the last publication request (PR) done to the technical writer team, through the technical literature management system (TLMS), for publishing this page. It should be added at the bottom of the page for which a PR has been done.

It puts a message box with a "light blue checked document" icon in the page.

Only logged-in users who have writing permissions, can see this box. However, do not put any confidential information in the parameters of this template.

```
Usage: {{PublicationRequestId | <TLMS PR ID> | <date> | <comment>}}
```

Where:

- `<TLMS PR ID>` is the **mandatory** identifier of the publication request done in the TLMS
 - **Auto** is a special value for this parameter to indicate that the page has been automatically approved (no TLMS PR ID)
- `<date>` is the date of the request in the YYYY-MM-DD format. It is a **mandatory** parameter, except if `<TLMS PR ID>` is **Auto**
- `<comment>` is an **optional** comment.

2 Basic examples

You type	You get
Publication request: TLMS PR ID and date supplied <pre> {{PublicationRequestId 12345 2019-05-09 }} </pre>	
Publication request: TLMS PR ID set with "Auto" and comment supplied	

You type	You get
<pre> {{PublicationRequestId Auto Automatic approval based on the "Category model" article}} </pre>	

3 More examples

You type	You get
<p>Publication request: no TLMS PR ID supplied, no date supplied</p> <pre> {{PublicationRequestId}} </pre>	
<p>Publication request: TLMS PR ID supplied, no date supplied</p> <pre> {{PublicationRequestId 12345}} </pre>	
<p>Publication request: no TLMS PR ID supplied, date supplied</p> <pre> {{PublicationRequestId 2019-05-09}} </pre>	
<p>Publication request: TLMS PR ID supplied, date supplied, comment supplied</p> <pre> {{PublicationRequestId 12345 2019-05-09 Comment about this PR}} </pre>	
<p>Publication request: TLMS PR ID set with "Auto", no comment supplied</p> <pre> {{PublicationRequestId Auto}} </pre>	
<p>Check that the spaces before and after the message</p> <pre> BEFORE{{PublicationRequestId Auto}}AFTER
 BEFORE {{PublicationRequestId Auto}} AFTER </pre>	<p>BEFOREAFT ER BEFORE AFTER</p>
