1 Usage

The `ReviewsComments` template is used **to store, in a page, a comment about the content (mainly, but not only, within the scope of the review process)**: question, disagreement, request for improvement etc. It should be added just before the line that is the object of the comment.

It puts a message box with a "pink notepad" icon in the page.

Only logged-in users who have writing permissions, can see this box. However, do not put any confidential information in the parameters of this template.

Usage: `{{ReviewsComments | <comment>}}`

Where `<comment>` is the **mandatory** comment message. It is recommended that reviewers sign their comment

- either with their MediaWiki signature plus timestamp thanks to the `~~~~` markup (replaced when saving),
- or with their name's trigram and the week number (e.g. `JCT w920 -`) in the comment message.

A custom button in the Wikitext editor toolbar allows to insert a review comment (with the MediaWiki signature):

Preview

Remember that this is only a preview. Your changes have not yet been saved! → [Go to editing area](#)
