

Template:U-Boot\$

1 Usage

The `U-Boot$` template is used **to prefix a command that must be executed on the U-Boot console, with a U-Boot-specific prompt.**

```
Usage:  {{U-Boot$}}
```

2 Basic examples

You type

bdinfo command executed on the U-Boot console

```
{{U-Boot$}} bdinfo
```

You get

```
STM32MP> bdinfo
```

3 Code

```
STM32MP>
```
