## 1 Usage

The `UnderConstruction` template is used **to indicate that a page (or part of a page) is under construction (not ready yet)**.

It puts a message box with a "pink under construction" icon in the page, and adds this page to the [Article under construction](#) category.

```
Usage:  {{UnderConstruction | <message>}}
```

Where `<message>` is the **optional** under construction message. If this parameter is not set, the default message is "Coming soon".
