

Template:UpdateNeededForNewBoard

1 Usage

The `UpdateNeededForNewBoard` template is used **to tag either a file, an article, a template, a chapter or a sentence that needs to be updated when a new board is added in the wiki.**

It doesn't put anything seen by the reader in the page: it is only **a kind of "phantom" tag**. To retrieve all the pages that contain this tag (and so that need to be updated because a new board is added in the wiki), it is enough to display [the pages that links this template](#). Then, searching for "UpdateNeededForNewBoard" in each page gives all the places where updates are needed.

```
Usage:  {{UpdateNeededForNewBoard | <comment>}}
```

Where `<comment>` is the **optional** comment to help updating .

2 Basic examples

You type

Update needed for new board without comment

```
Here is the list of the supported boards:
{{UpdateNeededForNewBoard}}
* B1
* B2
```

You get

Here is the list of the supported boards:

- B1
- B2

Update needed for new board with comment

```
The camera sensor is connected the CN7
camera connector of the STM32MP157C-EV1
board.{{UpdateNeededForNewBoard|Point to
the camera connector (if any) of the new
board}}
```

The camera sensor is connected the CN7 camera connector of the STM32MP157C-EV1 board.
